

IMPACT  
INNOVATIONS

# CAPABILITY STATEMENT

## OVERVIEW

Impact Innovations develops advanced ballistic armor and tactical protection systems engineered for the modern operational environment. Built on a foundation of innovation, precision, and trust, our solutions are designed to perform under pressure — protecting those who protect others.

With expertise spanning materials science, product engineering, and mission support, Impact Innovations delivers gear that combines lightweight strength, adaptability, and comfort without compromise. Our commitment to quality and performance ensures every product meets the highest standards of protection and reliability demanded by defense and law enforcement professionals worldwide.

## MISSION

Our mission is to advance protective technology that empowers those in uniform to operate with confidence and capability.

Through disciplined design, rigorous testing, and an uncompromising focus on performance, we provide tactical and armor solutions that meet real-world demands. Guided by integrity, innovation, and operational excellence, we stand behind every product — ensuring those who serve can do so with absolute trust in their equipment.

DRIVEN BY TECHNOLOGY, DEFINED BY  
PERFORMANCE — ADVANCING THE STANDARD  
OF PROTECTION FOR MODERN DEFENSE.

## NAICS CODES

**339113** Surgical Appliance and Supplies Manufacturing,  
**314999** All Other Miscellaneous Textile Product Mills,  
**315990** Apparel Accessories and Other Apparel Manufacturing,  
**339999** All Other Miscellaneous Manufacturing,

**313310** Textile and Fabric Finishing Mills,  
**541715** R&D in the Physical, Engineering, and Life Sciences,  
**541330** Engineering Services

Legal Business Name: Impact Innovations, LLC  
UEI: TYRCAWJYCZ15 | CAGE Code: 22JQ0  
SAM.gov: Active/Registered, Business Type: Small Business  
Headquarters: Phoenix, Arizona, Manufacturing Locations: Phoenix, Arizona.

# FROM CONCEPT TO COMBAT-READY, IMPACT INNOVATIONS DELIVERS SOLUTIONS THAT PERFORM WHEN IT MATTERS MOST.

## CORE COMPETENCIES

- Design and Manufacturing: Expertise in tactical and concealable armor platforms engineered for operational performance and comfort.
- Global Material Sourcing: Access to world-class materials through a globally optimized and secure supply chain.
- Rigorous Testing: All products are tested and certified to National Institute of Justice (NIJ), USA DoD, and various global standards, ensuring trusted ballistic performance.
- Advanced Support Infrastructure: State-of-the-art dealer and distributor back-office systems for streamlined logistics and order management.
- Rapid Response Production: Agile prototyping and responsive manufacturing to meet urgent operational or mission-critical demands.

## KEY CAPABILITIES

- Ballistic Inserts & Plates: Multi-threat protection from NIJ 0101.07/ NIJ Level HG1 to RF3, including special and DoD-specific threat testing.
- Spike and Stab Constructions: Various solutions covering a range of global spike, stab and fragmentation standards, including NIJ 0115.00.
- Customization & Integration: Modular platforms compatible with mission accessories and advanced technologies (communications, hydration, and power systems).
- Versatile Nylon Gear: Available in multiple sizes and camouflage patterns; designed for mobility, comfort, and modular load-bearing.
- Quality Assurance: ISO 9001-certified processes supported by stringent in-house ballistic and performance testing.
- Regulatory Compliance: Full adherence to DFARS, ITAR, and applicable U.S. government contracting and export regulations.
- Contract Experience: Proven participation in U.S. military, federal, and law enforcement contract programs and bids.

## DOD-RELEVANT EXPERIENCE

- Demonstrated ability to meet urgent operational requirements under Defense Acquisition Regulations, including rapid prototyping and accelerated production timelines.
- Active collaboration with accredited test facilities for first article inspection, certification, and ongoing ballistic validation.
- U.S.-based manufacturing footprint ensuring secure, Berry compliant, and timely delivery of mission-ready products.
- Robust partner network offering a wide range of contract mechanisms and purchasing channels.
